Travail en cours. Voir pour dessiner ? Dessiner pour voir ? Les informations délivrées par le toucher ne sont elles pas aussi pertinentes que celles dues à la vue ? " la vue est donc une espèce de toucher qui ne s'étend que sur les objets différents de notre visage …il n'y a que l'expérience qui puisse m'apprendre s'il y a conformité de relation entre la vue et le toucher " Diderot. La longue réflexion sur le dessin en aveugle se poursuit, avec une nouvelle proposition dans laquelle la photographie en aveugle est introduite. 1 - 2011
